The SONY model number is usually on the back of your SONY product, or on the front of your user manual.

This remote control is an Original Remote Control from SONY, it is a special "ONE FLICK" remote control for the above models.

Interacting with your TV has never been more intuitive.

Flick comfortably through what's on screen with the touchpad area - you don't even need to point the remote at the

TV screen.

With NFC embedded you can even share photos wirelessly from your smartphone on the TV screen at a single touch.

- Seamless, intuitive operation.
- No need to aim remote directly at TV.
- NFC ready for easy One-touch mirroring.
- Intuitive touch pad operation
- Built-in microphone for Voice Search
- 2.4GHz wireless connection
- IR Blaster compatible

Requires 2 x AAA Batteries
